

HARNESSING THE POWER OF PRAYER AND TECHNOLOGY

Jensen Beach, FL March 18, 2009 - It's no secret that where two or more are gathered, there are results. That is the premise behind Global Prayer Wake Up Call, a high-tech service created by Reverend Celia Filla and GlobalHeartSpiritualCenter.net . A two-minute daily message of affirmation and prayer, which is distributed via telephone at the same time to literally millions of individuals, the intent is to create an inspired outlook individually and globally. The service is being offered for free and asking only for donations, which are then used to pay for the basic operating expenses and to help run programs assisting communities and individuals in great need. The Global Prayer Wake Up Call is becoming successful beyond the founders' dreams.

Reverend Celia, who began her ministry on the streets of Fort Pierce, Florida, mentoring, feeding and clothing her neighbors, started the Global Heart Spiritual Center in Jensen Beach, Florida two years ago in an effort to "demonstrate the presence of God with my actions in our community and our world." With assistance from GlobalCallEnterprises.com, the state-of-the-art technology that handles the monumental task of providing millions of synchronized phone calls each and every day, along with help from members of her congregation that create web sites and handle publicity, Reverend Celia began providing the daily affirmation and prayer service in a 'test mode' six months ago. She says she has already seen dramatic positive changes in the lives of participants.

The process is simple and user-friendly. Participants sign up for the service for free, or by donation. Within one week of signing up, they will begin receiving a phone call at the hour of their choice. All they have to do is answer the telephone to receive the daily message delivered by Reverend Celia. The same message will be delivered to others subscribing to the service, helping to create a magnificent positive energy through prayer, creativity and commonality of purpose.

Author of the well known book, *Saved by the Light*, Dannon Brinkly says, "Prayer, whether used in religious contents or as willful conscious intent used scientifically, steadfastly remains the true model of harnessed spiritual might of directed thought." The Global Prayer Wake Up Call is a sign of the times and sets a new paradigm of unity and diversity because it brings together a wide variety of faiths, backgrounds, cultures and belief systems in a shared desire for peace, prosperity and the choice of a positive attitude within ourselves and our community.
